

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

ORDNANCE SURVEY OF ENGLAND

PARISH OF ECKINGTON

DERBYSHIRE

Scale of this Index One Inch to a Mile.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 36 inches being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (f) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> <p style="margin: 0;">ROMAN</p> <p style="margin: 0;"><i>Druidical or Saxon</i></p> <p style="margin: 0;"><i>Norman or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF EDENSOR

DERBYSHIRE

INDEX TO THE SHEETS

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·6018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [\] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The numbers of the adjoining plans are printed on the margin of this plan.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 10px;">{</div> <div> <p style="text-align: center;">ROMAN</p> <p style="text-align: center;"><i>Druidical or Saxon</i></p> <p style="text-align: center;"><i>Norman or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF EDLASTON & WYASTON

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book ; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names		Hundreds or Wards	
Parishes, Ancient or Mother.....		Civil Parishes or Townships	<i>T</i>
Extra Parochial		Division of Townships	<i>T</i>
Municipal Wards.....	<i>W</i>		

Antiquities	<div style="display: inline-block; vertical-align: middle;"> <div style="font-size: 3em; vertical-align: middle;">{</div> <div style="display: inline-block; vertical-align: middle; padding-left: 5px;"> ROMAN <i>Druidical or Saxon</i> <i>Norman or Subsequent</i> </div> </div>
-------------------	---

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain ...	<i>S.S.</i> or <i>S.D.</i>	Centre of Wall	<i>C.W.</i>
Root of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream.....	<i>T.S.</i>
Undefined.....	<i>Und.</i>		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF EGGINTON

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31'4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names		Hundreds or Wards	
Parishes, Ancient or Mother.....		Civil Parishes or Townships	<i>T</i>
Extra Parochial	<i>E</i>	Division of Townships	<i>T</i>
Municipal Wards..... <i>W</i>			
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 10px;">{</div> <div> <p style="margin: 0;">ROMAN</p> <p style="margin: 0;"><i>Druidical or Saxon</i></p> <p style="margin: 0;"><i>Norman or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain ...	<i>S.S.</i> or <i>S.D.</i>	Centre of Wall	<i>C.W.</i>
Root of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream.....	<i>T.S.</i>
Undefined..... <i>Und.</i>			

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF ELVASTON.

DERBYSHIRE

INDEX TO THE SHEETS

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book ; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names		Hundreds or Wards	
Parishes, Ancient or Mother.....		Civil Parishes or Townships	<i>T</i>
Extra Parochial	<i>E</i>	Division of Townships	<i>T</i>
Municipal Wards.....	<i>W</i>		

Antiquities	<div style="display: inline-block; vertical-align: middle;"> <div style="font-size: 3em; vertical-align: middle;">{</div> <div style="display: inline-block; vertical-align: middle; padding-left: 10px;"> ROMAN <i>Meridical or Saxon</i> <i>Norman or Subsequent</i> </div> </div>
-------------------	--

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain ...	<i>S.S.</i> or <i>S.D.</i>	Centre of Wall	<i>C.W.</i>
Root of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream.....	<i>T.S.</i>
Undefined.....			<i>Und.</i>

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

- (1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.
- (2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

, &c., bounding either side of a railway are included

ORDNANCE SURVEY OF ENGLAND

PARISH OF ETWALL

DERBYSHIRE

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the land, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 18 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and only are given for the portion within the red band, unless they are contained more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains six sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales 1-2500, and 6 inches to a mile :—

County Names		Hundreds or Wards	
Towns, Ancient or Mother.....		Civil Parishes or Townships	
Parochial		Division of Townships	
Municipal Wards.....			

Iniquities	ROMAN
	 <i>Anglo-Saxon</i>
	 <i>Norman or Subsequent</i>

The descriptions of the boundaries are shown by the following initials :—

Course of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Course of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Course of Stream or Drain ...	<i>S.S.</i> or <i>S.D.</i>	Centre of Wall	<i>C.W.</i>
Course of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Course of Wall	<i>F.W.</i>	Track of Stream.....	<i>T.S.</i>
Undefined.....		<i>Und.</i>	

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

- (1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.
- (2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF EYAM

DERBYSHIRE

INDEX TO THE SHEETS

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names		Hundreds or Wards	
Parishes, Ancient or Mother.....		Civil Parishes or Townships	<i>T</i>
Extra Parochial.....	<i>E</i>	Division of Townships	<i>T</i>
Municipal Wards..... <i>W</i>			

Antiquities	<div style="display: inline-block; vertical-align: middle;"> <div style="font-size: 3em; vertical-align: middle;">{</div> <div style="display: inline-block; vertical-align: middle;"> <p>ROMAN</p> <p><i>Pre-Roman or Saxon</i></p> <p><i>Norman or Subsequent</i></p> </div> </div>
-------------------	---

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain ...	<i>S.S.</i> or <i>S.D.</i>	Centre of Wall	<i>C.W.</i>
Root of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream.....	<i>T.S.</i>
Undefined.....			<i>Und.</i>

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

and, where necessary, etc., bounding either side of a railway are included wh

ORDNANCE SURVEY OF ENGLAND

PARISH OF FENNY BENTLEY

DERBYSHIRE

EXPLANATORY REMARKS

The Scale of the Parish Plans is the 1-2500th of the actual length on the land, and is equal to 25·844 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 18 inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and only are given for the portion within the red band, unless they are contained more than one parish, in which case a number is given for the portion included in each parish.

The Braces [{ }] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VL 9., the first number referring to the County Plan, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	H
Towns, Ancient or Mother	P	Civil Parishes or Townships	T
Urban Parochial	E	Division of Townships	T
Municipal Wards	W		

Antiquities	ROMAN BRITANNICAL or SAXON NORMAN or Subsequent
-------------------	---

The descriptions of the boundaries are shown by the following initials :—

Course of Stream	C.S.	Centre of Fence	C.F.
Course of Road	C.R.	Top of Cop	T.C.
Course of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Course of Hedge	R.H.	Defaced	Def.
Course of Wall	F.W.	Track of Stream	T.S.
Undefined			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

- (1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.
- (2.) The fences, &c., bounding either side of a railway are included wholly within its area.

INDEX TO THE SHEETS

LIV.16.	
---------	--

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the land, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 18 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and only are given for the portion within the red band, unless they are contained more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus — 31' 4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales 1-2500, and 6 inches to a mile :—

County Names		Hundreds or Wards	
Parishes, Ancient or Mother.....		Civil Parishes or Townships	<i>T</i>
Extra Parochial		Division of Townships	<i>T</i>
Municipal Wards.....			<i>W</i>

Antiquities	<div style="display: inline-block; vertical-align: middle;"> <div style="font-size: 3em; vertical-align: middle;">{</div> <div style="display: inline-block; vertical-align: middle;"> <p>ROMAN</p> <p><i>Druidical or Saxon</i></p> <p><i>Norman or Subsequent</i></p> </div> </div>
-------------------	---

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain ...	<i>S.S. or S.D.</i>	Centre of Wall	<i>C.W.</i>
Foot of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream.....	<i>T.S.</i>
Undefined.....			<i>Und.</i>

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

- (1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.
- (2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, and is very approximately equal to one square inch to one acre, the square of an inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; and in the case of towns and large villages encircled by a red band, one number and only one are given for the portion within the red band, unless they are contained within more than one parish, in which case a number is given for the portion included in each parish.

Braces [{ }] on the plans are to indicate that the spaces so braced are included under the same reference number.

Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

Scale of the County Plans is 6 inches to a mile, and each sheet contains six of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County and the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

Following are the characters employed on the Ordnance Plans on the Scales of 1 inch to a mile, 2½ inches to a mile, and 6 inches to a mile :—

Names	C	Hundreds or Wards	H
Names, Ancient or Mother.....	P	Civil Parishes or Townships	T
Parochial	E	Division of Townships	T
Municipal Wards.....	W		

Boundaries	ROMAN <i>Pre-Roman or Saxon</i> <i>Norman or Subsequent</i>

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

- (1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.
- (2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF WEST HALLAM

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book ; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus — 31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names		Hundreds or Wards	
Parishes, Ancient or Mother.....		Civil Parishes or Townships	<i>T</i>
Extra Parochial		Division of Townships	<i>T</i>
Municipal Wards.....	<i>W</i>		

Antiquities	<div style="display: inline-block; vertical-align: middle;"> <div style="font-size: 3em; vertical-align: middle;">{</div> <div style="display: inline-block; vertical-align: middle; text-align: left;"> <p>ROMAN</p> <p><i>Britidical or Saxon</i></p> <p><i>Norman or Subsequent</i></p> </div> </div>
-------------------	--

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain ...	<i>S.S. or S.D.</i>	Centre of Wall	<i>C.W.</i>
Root of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream.....	<i>T.S.</i>
Undefined.....	<i>Und.</i>		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

- (1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.
- (2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS

OR

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal [to one square inch to one acre, the square of 18 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and only are given for the portion within the red band, unless they are contained more than one parish, in which case a number is given for the portion included in each parish.

The Braces [**] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus — 31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T
Municipal Wards.....		W	

Antiquities	ROMAN <i>Anglo-Saxon</i> <i>Norman or Subsequent</i>
-------------------	---

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....		Und.	

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

.....

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; the case of towns and large villages encircled by a red band, one number and only are given for the portion within the red band, unless they are contained more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 36 sheets of the Parish Plans. There is therefore a double reference number to the sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

Parish Names		Hundreds or Wards	
Parishes, Ancient or Mother.....		Civil Parishes or Townships	<i>T</i>
Extra Parochial		Division of Townships	<i>T</i>
Municipal Wards..... <i>W</i>			
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 10px;">{</div> <div> ROMAN <i>Medieval or Saxon</i> <i>Norman or Subsequent</i> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Centre of Stream or Drain ...	<i>S.S.</i> or <i>S.D.</i>	Centre of Wall	<i>C.W.</i>
Foot of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Foot of Wall	<i>F.W.</i>	Track of Stream.....	<i>T.S.</i>
Undefined.....		<i>Und.</i>	

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

- (1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre
- (2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names		Hundreds or Wards	
Parishes, Ancient or Mother.....		Civil Parishes or Townships	
Extra Parochial		Division of Townships	
Municipal Wards..... W			

Antiquities	<div style="display: inline-block; vertical-align: middle;">  <div style="display: inline-block; vertical-align: middle;"> ROMAN <i>Druidical or Saxon</i> <i>Norwegian or Subsequent</i> </div> </div>
-------------------	---

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain ...	<i>S.S.</i> or <i>S.D.</i>	Centre of Wall	<i>C.W.</i>
Root of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream.....	<i>T.S.</i>
Undefined.....	<i>Und.</i>		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF HATHERSACE (*Det. N^o. 1*)

EXPLANATORY REMARKS

PARISH OF HATHERSACE (Det. No. 1)

Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 8 inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [{ }] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	H
Towns, Ancient or Mother.....	P	Civil Parishes or Townships	T
Parochial	E	Division of Townships	T
Municipal Wards.....	W		

Antiquities	<div> ROMAN Anglo-Saxon Norman or Subsequent </div>
-------------------	---

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Foot of Hedge	R.H.	Defaced	Def.
Foot of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

- (1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.
- (2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

INDEX TO THE SHEETS

	XL1.5
--	-------

EXPLANATORY REMARKS.

Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 8 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [**] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus — 31' 4".

The Scale of the County Plans is 6 inches to a mile, and each sheet contains six sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plan, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T
Municipal Wards.....	W		
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> <p>ROMAN</p> <p><i>Druidical or Saxon</i></p> <p><i>Norwegian or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

- (1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.
- (2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF HOGNASTON

DERBYSHIRE

INDEX TO THE SHEETS

EXPLANATORY REMARKS

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31'4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T
Municipal Wards.....		W	
Antiquities	{ ROMAN Druidical or Saxon Northern or Subsequent		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book ; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [\] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	H
Parishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T
Municipal Wards.....	W		

Antiquities	<div> <div>ROMAN</div> <div> <div>Pre-Roman or Saxon</div> <div>Norman or Subsequent</div> </div> </div>
-------------------	--

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF HOPE (*Det. N^o 1*)

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of ·6018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The numbers of the adjoining plans are printed on the margin of this plan.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> <p style="text-align: center;">ROMAN</p> <p style="text-align: center;"><i>Pre-Roman or Saxon</i></p> <p style="text-align: center;"><i>Norman or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

PARISH OF HOPE (Det. No. 1)

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF HOPE (*Det. N^o 2*) & TIDESWELL PH (*Det.*)

DERBYSHIRE

INDEX TO THE SHEETS

Published on the Scale of $\frac{1}{2500}$ or 25·344 Inches to a Mile

Scale of this Index One Inch to a Mile.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which, is very approximately equal to one square inch to one acre, the square of $\frac{1}{6018}$ inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [\] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The numbers of the adjoining plans are printed on the margin of this plan.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 10px;">{</div> <div> <p style="text-align: center;">ROMAN</p> <p style="text-align: center;"><i>Denudical or Saxon</i></p> <p style="text-align: center;"><i>Norman or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

- (1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.
- (2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF HOPE (*Det N^o 3*)

EXPLANATORY REMARKS.

Scale of the Parish Plans is the 1-2500th of the actual length on the , and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, is very approximately equal to one square inch to one acre, the square of 3 inch being equal to one acre.

length of each sheet is 1½ miles, and the breadth 1 mile, the area of each is therefore 960 acres.

sh enclosure has a reference number to the area which is given in this Book ; case of towns and large villages encircled by a red band, one number and nly are given for the portion within the red band, unless they are contained re than one parish, in which case a number is given for the portion included sh parish.

ae Braces [\] on the plans are to indicate that the spaces so braced are in- ad under the same reference number.

he Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

he Scale of the County Plans is 6 inches to a mile, and each sheet contains sheets of the Parish Plans. There is therefore a double reference number to sheet of the Parish Plans, as VI. 9., the first number referring to the County as, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales 1-2500, and 6 inches to a mile :—

ounty Names	©	Hundreds or Wards	H
ishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
xtra Parochial	E	Division of Townships	T
Municipal Wards.....	W		

Antiquities	{	ROMAN
		Druidical or Saxon
		Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

- (1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.
- (2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF HORSLEY

DERBYSHIRE

INDEX TO THE SHEETS

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and one only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names		Hundreds or Wards	
Parishes, Ancient or Mother.....		Civil Parishes or Townships	
Extra Parochial		Division of Townships	
Municipal Wards.....			

Antiquities	<div style="display: inline-block; vertical-align: middle;"> <div style="font-size: 3em; vertical-align: middle;">{</div> <div style="display: inline-block; vertical-align: middle;"> <p>ROMAN</p> <p><i>Druidical or Saxon</i></p> <p><i>Norman or Subsequent</i></p> </div> </div>
-------------------	---

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain ...	<i>S.S. or S.D.</i>	Centre of Wall	<i>C.W.</i>
Root of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream.....	<i>T.S.</i>
Undefined.....	<i>Und.</i>		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF ILKESTON

DERBYSHIRE

INDEX TO THE SHEETS

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the land, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 118 inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and only are given for the portion within the red band, unless they are contained more than one parish, in which case a number is given for the portion included in each parish.

The Braces [{ }] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 3 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	Ⓒ	Hundreds or Wards	H
Parishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T
Municipal Wards.....W			
Antiquities	{ ROMAN Druidical or Saxon Norman or Subsequent		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....Und.			

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.
